### DETAILED ACTION

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-14 are rejected under 35 U.S.C. 102(b) as being anticipated by (either Rowland U.S. Pat. Nos. 3684348 or 3810804).

Both references teach a recessed face layer (12) with a reflective film (30) and adhesive (34) which fills the recesses. Refer to Fig. No 3 along with the corresponding text in both Rowland patents.

Claims 15-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Rowland et al U.S. Pat. No. 5,512,219)

Rowland et al teaches a recessed substrate (16,36) with a reflective layer wherein the recesses are filled with a radiation sensitive polymer (22,44). Refer to fig. no. 2, 30, 3E along with column 4, lines 5-24 and column 5, lines 28-65.

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686

Art Unit: 1772

F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321© may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-21 rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-21 of U.S. Patent No. 6280822. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the same scope except for the "width between the recesses" limitation in U.S. Patent No. 6280822 which is excluded from the broader instant claims.
